Structure and Criteria of Demonstration in Week 10

Introduction

The demonstration in Week 10 will count for 30% towards your final mark. During this demo session, we expect:

a. a *short* **presentation** of the idea, design, and overall work.
b. a *short* **discussion** on the design decisions, problems, and limitations of the work.
c. a **demonstration** of a working prototype.
   Prioritize time for the element which brings out the real contribution of your project

The presentation/discussion can be done in one of the following formats (from a grade perspective, we are looking for quality and content, *the format is irrelevant*):

- a PowerPoint presentation
- verbal / video presentation
- a printed poster

The criteria for the evaluation of the demonstrations are:

- Overall quality of the presentation
  How well is the idea and demonstration described?
- Technical complexity and fidelity of the prototype
  What is the technical depth, complexity, novelty, and quality of the prototype?
- Overall quality of the demonstration
  How well did the prototype work? How does it implement the design ideas and research problem outlined in the design documents?
- Overall quality of the project idea
  Is this a well thought-through idea?

Format

Time: Each group has 45 min (15 min setup unsupervised, 10min presentation+5 min demo, 10 min questions, 5 min switch over)

Location: InfoLab C60b/c and C60a

Markers: Abe Karnik, Elisa Rubegni, and our wonderful TAs: Gail and George.

Process:

a. Set up prior to start of your presentation timeslot (unsupervised). Minimum one person per team to be physically present to setup and coordinate (e.g. Teams call for remote participants in respective channel). Markers will arrive in the room at indicated start of session.
b. 25 minutes for actual demo session. Please don't run over time. We will ask you to stop the presentation if it exceeds 10min unless there's no demo planned.
c. Share all required materials in advance with due consideration to size and accessibility (OneDrive is preferred, but don't share a 1GB file, Moodle will accept some files)

Group schedule: (Check the WK10 Moodle Space for final schedule)
